

OECD STANDARD AUDIT FILE FOR TAX

Are your SAF-T reporting to the tax authorities ready?

If you implement Axdata SAF-T solution:

- Your company will be able to deliver according to the requirements of SAF-T reporting.
- Tax authorities using SAF-T standard will be able to carry out more frequent checks and process cases faster than before.

In other words, it is a great advantage to you and your company to be well prepared and have a proven system as soon as possible.

Benefits

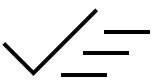

Reliable

You will submit the reports in the form required by the Tax authorities on time directly from your Dynamics AX.

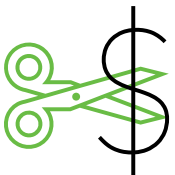

Flexible & efficient

Flexibility for your auditors to extract the data and prepare reports on time as well as seamless and efficient process for SAF-T report preparation.

Fits all ERP (Dynamics 365 & Dynamics AX)

Complete solution that produces SAF-T report ready for submission directly from your Microsoft Dynamics AX **regardless version!**

Reducing the cost

No fines for untimely submitting SAF-T reports, freeing own IT and accounting resources.

Meet compliance responsibilities

The purpose of SAF-T is to conduct more efficient and effective tax inspections by enabling easier identification of the main areas of non-compliance in the tax reporting.

Preferred SAF-T solution for
Microsoft Dynamics AX in Norway
